*a screen inside a screen*

A '"side view"'of a webspider divided in its circunference modules:

Visual Explanation

TEIA

Just the planified and geometric shadow of a 3D 'T' seen from its bottom. The right side of the 'T' becomes a screen, a blank space for the rotational logos to be.

The 'teia' text is just a placeholder

TEIA

Just the planified and geometric shadow of the word 'TEIA' in 3D seen from its bottom.

The alongated shadow becomes a blankspace for the rotational logos.

The 'teia' text is just a placeholder

Different 'T's silhouets and outlines with enoughspace so the rotation logos can fit in.

The 'teia' text is just a placeholder

TEIA

This design is a symbol that ressembles Spiderweb's window modules. There's enough blank space so the rotational logos can fit
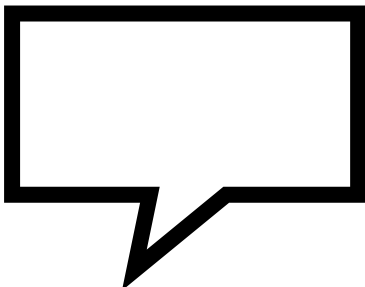

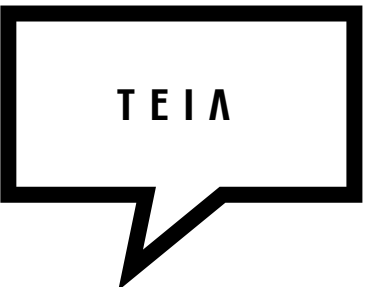

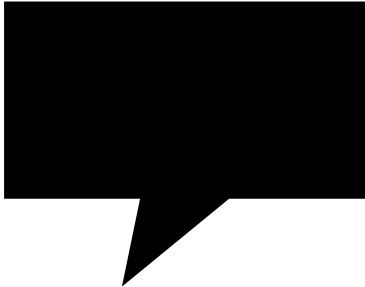

The 'teia' text is just a placeholder

A text box symbol that ressembles a 'T' but also a screen. Community driven projects in the digital era are all abou hearing and communication.
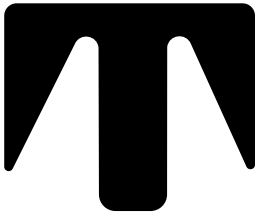

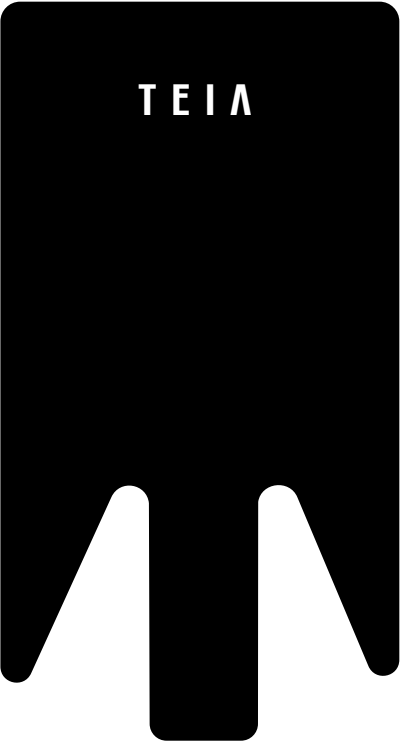

The 'teia' text is just a placeholder

A text box symbol that ressembles a 'T'. Community driven projects are all abou hearing and communication.
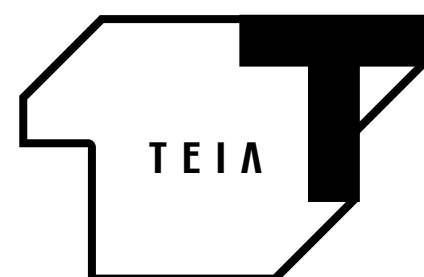

The 'teia' text is just a placeholder

TEIA

A framed part of some windows of a spiderweb designed so it can look like a 'T' also.

The 'teia' text is just a placeholder

"T slide"

Just the planified and geometric shadow of a 3D 'T' projected from right to left.
The biggest shaddow becomes a blankspace for the rotational logos.

The 'teia' text is just a placeholder
